

## What is Everfresh?

EVERFRESH is a concentrated liquid formulated for neutralising and removing bad odours from carpets.

### Key Benefits

- ✓ Biodegradable
- ✓ Contains no cationics or alkalis, so it is safe to use on wool carpets and on stain-resistant carpets

### How Does It Work?

EVERFRESH contains unique deodorising oils and germ-killing, mouldicidal agents which launch a two-pronged attack to destroy the odour source, remove any lingering bad smells and leave a pleasant spice perfume.

EVERFRESH contains no cationic quaternary ammonium compounds, and its pH is below 9, so it is ideal for use on stain-resistant carpets where ordinary deodorisers cannot be used.

### For Use On...

EVERFRESH is a concentrated liquid formulated for neutralising and eliminating bad odours in carpets caused by smoke, vomit, urine, perspiration, spoiled foodstuffs and other spillages. It is also very effective in overpowering odours that are caused by carpet wetness, mildew and mould.

## Technical Data

### Composition

EVERFRESH contains a low-toxicity phenolic germicidal and mouldicidal agent together with spice perfume oils and nonionic agent detergent compounds. EVERFRESH is a water-based product. It does not contain triclosan.

### Properties

COLOUR – Light green liquid  
ODOUR – Spice perfume  
pH = 5.0 ± 0.5  
SOLUBILITY – Miscible with water in all proportions

### Environmental Care

EVERFRESH conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. EVERFRESH is non-flammable, phosphate-free and biodegradable. EVERFRESH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

- Dilute to 1 in 10 with water and spray into all those areas of carpet which have bad odour.
- Allow to activate for 10 minutes then extract with CITRUS EXTRA or EXIT extraction detergent.
- For odours that originate in the carpet backing, inject neat EVERFRESH into the backing and allow to dry.

## Disposal Information

### 1. Used solutions -

Used Solutions of EVERFRESH should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

### 3. Empty packaging

#### Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. EVERFRESH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
