

## What is Truckwash?

TRUCKWASH is a powerful cleaner for removing road dirt, oil and carbon from truck, car and bus paintwork, rubber, chrome and glass.

### Key Benefits

- ✓ Effective removal of traffic film and road dirt
- ✓ Will not dull the paintwork
- ✓ Will not cause rusting
- ✓ Leaves tyres clean and black
- ✓ Dries streak-free

### How Does It Work?

TRUCKWASH is a concentrated vehicle detergent for breaking down and removing road dirt, mud, oil films, exhaust soot and insect residues from most vehicles.

### For Use On...

TRUCKWASH is to be used on trucks, cars buses, 4WD's, caravans, boats, motorbikes, trains and trams. It is effective for cleaning paintwork, rubber trims and tyres, chrome, aluminium, glass, mag wheels, fibre glass and vinyl surfaces.

TRUCKWASH has great versatility, it is also ideal for cleaning exterior building surfaces exposed to road grime and the elements, such as brickwork, walls, canopies, blinds, roof tiles, paintwork and windows.

TRUCKWASH may be used with soft or hard water. It is a 'Quick Break' detergent, allowing total segregation of oil and water.

## Technical Data

### Composition

TRUCKWASH is nearly pH-neutral. It contains natural and synthetic surfactants, sequestrants, builders, corrosion, inhibitor and water.

### Properties

COLOUR – Bright blue liquid  
ODOUR – None  
pH = 7.5 – 8.5  
FOAM – High foam of moderate stability

### Environmental Care

TRUCKWASH conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. TRUCKWASH is non-flammable and contains biodegradable surfactants. TRUCKWASH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

- It is best to use TRUCKWASH on cool surfaces (i.e. in the shade, if possible)
- Hose down the surfaces to remove excess dirt and dust particles.
- Dilute TRUCKWASH to 1 in 10 parts with water (for heavy soil or foam-gun application) or 1 in 20 parts with water (for light soil or brush-on application).
- Spray or brush the solution over all surfaces until completely wet, working from the bottom upwards.
- Allow to soak for 5-15 minutes so the TRUCKWASH can breakdown the dirt. It is okay if the solution dries out on the surface, but you'll need to re-agitate it before rinsing it off.
- Rinse off with a hose or pressure washer to remove all the dirt and detergent.
- To remove baked-on dirt or bug splatters use TRUCKWASH straight from the bottle on a soft cloth.

## Disposal Information

### 1. Used solutions -

Used Solutions of TRUCKWASH should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

### 3. Empty packaging

#### Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. TRUCKWASH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L, 200L
