

What is Ambergold?

AMBERGOLD is a premium quality all-over bodywash shampoo. The rich, luxurious foam rinses away soils and leaves the skin feeling soft and enriched and the hair silky, conditioned and manageable. AMBERGOLD is balanced to the natural pH of the skin, and is very mild and gentle even on sensitive skin. It is suitable for us use in both soft and hard water.

Key Benefits

- ✓ Mild action on the skin
- ✓ Conditions the hair
- ✓ Leaves the skin feeling soft and clean
- ✓ Gentle enough to use everyday

How Does It Work?

AMBERGOLD produces a rich luxurious foam that floats away dirt and grime from the hair and skin. The pH balanced formulation leaves the skin feeling soft and supple and the hair silky, conditioned and manageable. AMBERGOLD contains wheatgerm oil, aloe vera and glycerine to enrich and care for the skin.

For Use On...

The all-in-one formula of AMBERGOLD means that it is efficient to use and also replaces three separate products (body wash, shampoo and conditioner). AMBERGOLD is ideal for use in aged care facilities, gyms, health clubs, leisure centres, swimming pools, hospitals, military bases, cruises ships, universities or just at home.

Technical Data

Composition

AMBERGOLD contains synthetic surfactants selected for their mild cleansing action, dimethicone and modified gum conditioners, provitamin B5, pearlescent, food colour, cosmetic preservative, fragrance, sequestrant and water. Contains no formaldehyde.

Properties

APPEARANCE – Pearlescent viscous liquid
COLOUR – Transparent colourless liquid
ODOUR – Subtle fragrance
pH = 5.5 – 6.5
FOAM – Rich, stable foam

Environmental Care

AMBERGOLD conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or environmental concerns. AMBERGOLD is phosphate-free, water-based and biodegradable. ACID WASH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

- Wet the skin and hair.
- Place a pool of AMBERGOLD about the size of a 20 cent coin in the palm of the hand.
- Apply the AMBERGOLD firstly to the hair and rub in thoroughly, then use as a bodywash.
- A shower sponge may be used to good effect in lathering up the AMBERGOLD.
- Rinse off with water.

Disposal Information

1. Used solutions -

Used Solutions of AMBERGOLD should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

(Continue Page 2)

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. AMBERGOLD containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
