

What is Cool Tide?

COOL TIDE is a thick anti-bacterial hand sanitiser that kills germs on the skin. It contains 73% v/v (60% m/v) ethyl alcohol, which reduces the level of germs on the skin safely and effectively.

Key Benefits

- ✓ No water needed, just apply and rub it in
- ✓ Leaves the hands soft and refreshed
- ✓ Antibacterial
- ✓ Rinse-free and non-sticky

How Does It Work?

Transient germs – those that are picked up on your hands by making contact with other people or surfaces – sometimes cause illness. Washing your hands with soap and water removes these germs. COOL TIDE kills transient germs and is an excellent option if soap and water are not available.

For Use On...

COOL TIDE is a sanitiser for the hands. It is especially important to practice good hand hygiene:

- After using the toilet
- Before eating or drinking
- Before and after handling raw fish, poultry and eggs
- After using public facilities, such as phones, public transport, ATM's, lifts or escalators
- In school and child-care centres
- After changing nappies
- When you or others with you are sick
- After shaking hands
- After sneezing or coughing

COOL TIDE is for external use only.

Technical Data

Composition

COOL TIDE contains ethyl alcohol conditioned with glycerine and wheatgerm oil. It also contains water and a thickening agent.

Active ingredient: Ethyl alcohol 73% v/v (60% m/v)

Properties

COLOUR – Thick colourless liquid
ODOUR – Mild alcohol
pH = 5.5 ± 0.5
FOAM – Low foaming

CAUTION – COOL TIDE is flammable.

Environmental Care

COOL TIDE is biodegradable. The surfactants in the product are highly biodegradable. Ethyl alcohol is a 100% naturally renewable product. COOL TIDE conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. COOL TIDE is phosphate free. COOL TIDE containers will be cleaned and re-used if returned to Agar Cleaning Systems, significantly reducing plastic usage and waste. The containers can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

Use COOL TIDE properly by following the directions on the label:

- Wet the hands with about ½ teaspoon of COOL TIDE, then rub the hands together vigorously until they are dry.
- Children should be supervised by an adult when using COOL TIDE.
- If the hands are visibly dirty, use soap and water to clean them first.
- Never light a cigarette or expose the hands to flames or sparks when using COOL TIDE. It is flammable and could catch fire.

Storage

COOL TIDE is stable for 12 months. Store in the original sealed container and keep out of direct sunlight. Also avoid storing the product in extremes of temperature; try to keep it between 10- and 30-degrees C.

Solutions of COOL TIDE should be used up within 6 – 8 hours of dilution. After this time, they may begin to lose their effectiveness.

Disposal Information

1. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

2. Empty packaging

Bottles and drums

Our 500ml and 5L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. COOL TIDE containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 500ml, 5L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
