

## What is Silvan?

SILVAN is a gentle hand cleanser specially made for use in kitchens and food processing areas. It produces a rich lather which floats away dirt and grime and leaves skin soft and supple.

### Key Benefits

- ✓ Perfume-free and ideal for use in food preparation areas
- ✓ More economical than bar soaps because there is no waste, no pilferage and no over-use
- ✓ Gentle enough to be used throughout the day
- ✓ Leaves the hands soft and supple
- ✓ Attractive, premium-quality liquid hand cleanser

## How Does It Work?

SILVAN instantly produces a rich lather that floats away dirt and grime from the hands and leaves the skin soft and supple. SILVAN contains provitamin B5 and glycerine to enrich and care for the skin.

## For Use On...

SILVAN is a gentle hand cleanser for use in kitchens, restaurants, washrooms and food factories where moderate to light soilage must be washed from the hands.

## Technical Data

### Composition

SILVAN is a gentle soap containing a blend of mild coconut oil derivatives conditioned with glycerine and provitamin B5.

### Properties

COLOUR – White  
APPEARANCE – Pearlescent viscous liquid  
ODOUR – None  
pH = 5.3 – 6.0  
FOAM – Rich, stable foam

## Environmental Care

SILVAN conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. SILVAN containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements". First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Approvals

SILVAN has been approved as a Liquid Hand Soap Type A for use in establishments registered under the Export Control Act 1982 by the Australian Quarantine and Inspection (AQIS), Department of Primary Industries and Energy.

## Application

- Wet hands and apply a small amount of SILVAN.
- Rub hands to produce a rich lather.
- Rinse hands and dry. SILVAN will quickly float away dirt and grime.

## Disposal Information

### 1. Used solutions -

Used Solutions of SILVAN should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

### 3. Empty packaging

#### Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. SILVAN containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

**Available in:** 500ml, 750ml, 5L
