

## What is Dishwash Gold?

DISHWASH GOLD is a high-foaming neutral detergent for handwashing dishes, glasses, utensils, cutlery, pots and pans. It can be used with glass, china and metal surfaces. It is perfume-free as required for food processing works.

### Key Benefits

- ✓ Suspends food residues and rips through fatty films
- ✓ Gentle on the hands – can't be beaten for dishwashing
- ✓ Economical to use
- ✓ No perfume

### How Does It Work?

DISHWASH GOLD will remove food, grease, protein matter, cooking fats and oils from china, glass and metal surfaces. Its excellent capacity for removing fats and food residues makes DISHWASH GOLD an ideal pot-wash detergent. DISHWASH GOLD works effectively in soft and hard water.

### For Use On...

DISHWASH GOLD is a high-foaming neutral detergent for cleaning dishes, glasses, utensils, cutlery, pots and pans by hand washing in the kitchen sink. DISHWASH GOLD is also excellent for general cleaning where a neutral detergent is required.

## Technical Data

### Composition

DISHWASH GOLD is formulated with premium surfactants and foam booster which attack and disperse soilage matter.

DISHWASH GOLD is coloured with a food dye. It is non-toxic and non-corrosive.

### Properties

COLOUR – Transparent, thick yellow liquid  
ODOUR – None  
pH = 7.0 – 8.0  
FOAM – Very high foam level with good stability

### Environmental Care

DISHWASH GOLD conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. DISHWASH GOLD non-flammable, phosphate-free and biodegradable. DISHWASH GOLD containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

### Sink washing of pots, pans and dishes:

- **Heavy Soilage:** Dilute to 1 in 667 (0.15%) with hot water. This is 10 – 15ml per 10L domestic sink or 50 – 75ml per 50L commercial sink. Wash dishes with a dish cloth, dish mop, sponge or brush.
- **Light Soilage:** Dilute to 1 in 1000 (0.1%) with hot water. This is 10ml per 10L domestic sink or 50ml per 50L commercial sink.

### General cleaning of floors, walls, fittings, motor vehicles and all wettable surfaces:

- Dilute to 1 in 100-400 with warm water, depending on degree of soilage.

## Storage

DISHWASH GOLD is stable for 12 months. Store in the original sealed container and keep out of direct sunlight. Also avoid storing the product in extremes of temperature; try to keep it between 10- and 30-degrees C.

Solutions of DISHWASH GOLD should be used up within 6 – 8 hours of dilution. After this time, they may begin to lose their effectiveness.

## Disposal Information

### 1. Used solutions -

Used Solutions of DISHWASH GOLD should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

Gentle, Neutral Detergent

Product Data Sheet

Product Code: DISH

Issued: November 20, 2025

### 3. Empty packaging

#### Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. DISHWASH GOLD containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 15L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
