

Gas 20" Burnisher

POLIVAC

INTELLIGENT CLEANING TECHNOLOGIES.

When you want 1,900 square meters per hour straight line gas burnishing, you can rely on the legendary long life and reliability of the Polivac 20" Gas burnisher.

Fitted with the new Closed Loop Engine Emission technology, it automatically ensures that CO emissions are minimised and maintained at safe levels, below the workplace exposure standard determined by Safe Work Australia.

All Australian-made, the Gas 20" has been specifically designed for Australian operating conditions.

Our most manoeuvrable gas burnisher ...the Gas 20" for high efficiency coverage of medium to large areas.

Fully featured, state-of-the-art burnisher

This compact high speed machine delivers 13 horsepower (and more*) in a balanced, Operator-friendly package.

Smooth to operate and easy to use, the Gas 20" punches above its weight compared to other machines in its class.

All Australian-made, the Gas 20" has been specifically designed for Australian operating conditions.

CLOSED LOOP ENGINE EMISSIONS TECHNOLOGY

The steady delivery of fuel ensures that CO emissions are minimised and maintained at safe levels, well below the workplace exposure standard determined by Safe Work Australia of 30 ppm.

Bias control

This allows the Operator to easily align the machine to prevent any sideways drag - resulting in much smoother, easier operation.

Powder-coated steel base for maximum strength and minimal cleaning

Built to last, the Gas 20" solid construction and highly durable finish ensures long life with maximum presentation.

Power 'plus' - 2500rpm

High performance combined with ultimate reliability... the Gas 20" Honda motor comes in 9.69 kw (13 hp).

Single stage active vacuum system / floating skirt

The skirt is positioned within the machine body for greater protection as well as containing the dust so that the active vacuum system leaves the floor dust-free.

Push-button, electric start

Easy starting every time from the 12 volt, long life battery.

Over 120 Distributors in Australia, New Zealand and Worldwide

Every Polivac product is backed by a national and international network, so you can be confident of service, repairs or parts supply being turned around ...fast!

This machine operates at a noise level more than 85 d(B)A. Therefore, hearing protection must always be worn when operating this machine. For more information on the risk assessment and safety precautions please refer to our risk assessment questions and answers document on our website under product downloads.
