GS-13 ROTARY SCRUBBER

OVERVIEW

The Mitchell GS-13 is a 33cm 150rpm single disk rotary floor scrubber. Equipped with a 0.75 Kw motor makes it the machine for continued everyday use.

It's simple to use and ergonomically designed to maximise operator comfort, making it an essential tool for the cleaning industry professional.

Perfectly suited for daily cleaning of schools, restaurants, hotels, shopping malls and public buildings.

Its durable all metal housing ensures that the GS-13 can be relied on to fulfil routine cleaning requirements day in and day out.
