

What is Green 'N' Gold?

GREEN'N'GOLD Carpet Detergent is an environmentally preferable detergent for cleaning carpets by hot water extraction. It contains fast-acting cleaning agents and is pH controlled to be safe to use on 100% wool carpets, nylons and all washable synthetic fibres.

Key Benefits

- ✓ Excellent cleaning power
- ✓ pH neutral, which enables it to be safely used on 100% wool carpets
- ✓ Perfume dispels "wet carpet" odours and leaves a fresh citrus fragrance
- ✓ Contains biodegradable surfactants, no added phosphates and is environmentally preferable

How Does It Work?

GREEN'N'GOLD is a citrus perfumed, surfactant driven, liquid detergent for hot water extraction carpet cleaning. GREEN'N'GOLD can also be used as a carpet spotter or pre-spray detergent. Being pH neutral, GREEN'N'GOLD is safe to use on carpets in trains, boats and planes and will not affect aluminium, fibreglass or painted surfaces.

For Use On...

GREEN'N'GOLD is designed for use on all types of carpet including hard to clean, low cost acrylics, new generation, stain resistant nylons and pure wool or wool blend carpets as well as Persian rugs and printed carpets.

Technical Data

Properties

COLOUR – Yellow
 APPEARANCE – Mobile Liquid
 ODOUR – Pleasant Citrus Fragrance
 pH = 6.5 ± 0.5
 FOAM – Low foaming

Environmental Care

GREEN'N'GOLD conforms with all statutory environmental requirements. GREEN'N'GOLD has been made from ingredients that have been chosen to give the following properties:

- Contains biodegradable surfactants
- No added phosphates
- pH-neutral

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and

number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
GREEN'N'GOLD	Beige	10	Carpet and Spot Cleaners

GREEN'N'GOLD contains:

- Surfactants that are biodegradable under aerobic and anaerobic conditions.
- Very low amount of VOC's (volatile organic compounds) that may cause poor air quality, air pollution and potential allergic reactions in some individuals.
- **NO** ammonia, glycol ethers, heavy metals, ozone depleting substances, nonyl phenol ethoxylates, free caustic or chlorine.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

Carpet Spotting:

- Dilute to 1 in 20 with water.

Extraction Cleaning:

- Remove litter from carpet and vacuum if necessary.
- Place moveable furniture on coasters.
- Clean carpet with solutions as follows:
 - **Light Soilage:**
Dilute to 1 in 120 with water.
 - **Medium Soilage:**
Dilute to 1 in 80 with water.
 - **Heavy Soilage:**
Dilute to 1 in 40 with water.
- Avoid over-wetting the carpet. Allow carpet to dry as quickly as possible, provide ventilation where possible.

Pre-Spray:

- GREEN'N'GOLD can also be used as a pre-spray detergent at 1 in 20 with water or 1 in 30 with water, depending on soilage. Spray solution on carpet, then extract with water in the tank.

Disposal Information

1. Used solutions -

Used Solutions of GREEN'N'GOLD should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system. Although GREEN'N'GOLD has a low aquatic toxicity, detergents in general are not good for aquatic wildlife.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. GREEN'N'GOLD containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L
